

TRANSFORM YOUR CONSTRUCTION SITE INTO A REAL-TIME STORY

*AI-Powered Time-Lapse
Construction Camera Solutions for
Real-Time Monitoring, Reporting
and Visual Documentation*

- ✓ Build Smarter
- ✓ Track Better
- ✓ Deliver Faster

THE PROBLEM ON EVERY SITE

Missed Opportunity in Project Marketing & Branding, i.e. Marketing content, Investor presentations and Sales storytelling

Difficulty in Reporting to Financiers & Stakeholders because of lack of continues and real time visual proof.

Insufficient documentation for handover and audits; lack of a structured visual history and construction stages.

High Cost & Inefficiency of Physical Site Visits and Delays in approvals because someone "needs to visit site first"

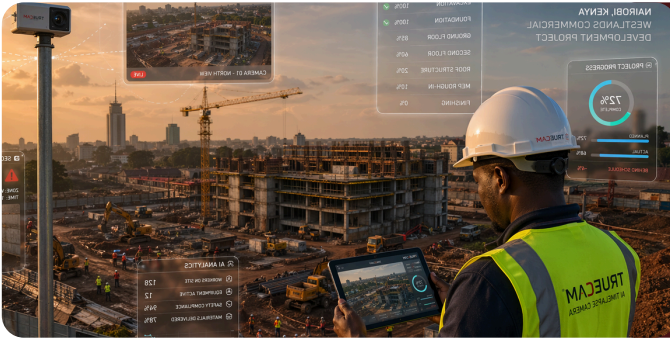

Progress is reported on paper but not always verified.

Site updates are often verbal, WhatsApp photos, or manually compiled reports

THE SOLUTION

AI powered Time-Lapse Construction Cameras

Capture, monitor, and manage your entire project—remotely, visually, and in real-time

A fully integrated cloud-based solution providing live site visibility, automated progress tracking, and visual documentation from anywhere.

“No more ‘niko site, things are moving’ — now you can actually see it.”

WHAT YOU GET:

Real-Time Remote Project Visibility

Adaptive and time-lapse videos from anywhere, anytime

Automated Visual Progress Tracking

Detailed reports, timelines, and minute tracking without manual follow-ups

High-Resolution Visual Documentation

From 45MP to 45MP Ultra-freefly imagery for unmatched clarity and detail

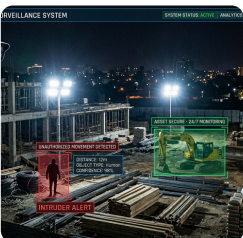

Project Time-Lapse

From groundbreaking to completion in one cinematic video

Cloud-Based Monitoring Platform

Securely stored, accessible, and shareable visual records

Site Security Monitoring

Keep watch even after hours. Reduce theft and unauthorized access

360° Site Coverage

Monitor the entire site with a single camera—equivalent to multiple fixed cameras

AI-Powered Insights

Track workforce, vehicles, PPE compliance & site activity automatically

Integration Ready

Seamlessly connects with BIM, Procore, Autodesk & project planning tools

Automated Alerts & Reporting

Stay updated with instant notifications and scheduled reports

VALUE TO YOUR PROJECT

Enhance Stakeholder Confidence

Share live progress with clients, consultants & investors

Eliminate Disputes

Use visual evidence for claims, variations & accountability

Boost Marketing & Branding

Create stunning project time-lapse videos for promotions

Improve Site Productivity

Monitor activities and optimize workflows

Lower Operational Costs

Reduce site visits, supervision costs & rework

Improve Reporting

Real-time updates for clients & financiers

Reduce Project Delays

Make faster decisions with real-time insights

SEE EVERYTHING. MISS NOTHING.

From the **first excavation** to **final handover**, capture every milestone with precision, clarity, and confidence.

GET STARTED TODAY

Upgrade your construction visibility. Deliver projects faster, smarter, and with proof.
