

# SMART VISITOR MANAGEMENT SYSTEM

*Secure Every Entrance  
Monitor Every Visitor  
Enhance Every Arrival*

Modern buildings require modern security and access management. Traditional visitor logbooks create security gaps, operational inefficiencies, and poor visitor experiences. The **Smart Visitor Management System (VMS)** from Spans Ventures Ltd replaces manual processes with a **fully digital, secure, and automated visitor management platform.**

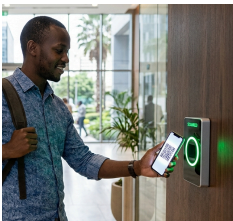

# TRANSFORM HOW YOU MANAGE VISITORS

The Visitor Management System digitises the entire visitor journey from pre-registration to entry verification and exit logging.

Facilities benefit from:

- ✓ Faster visitor processing
- ✓ Improved security visibility
- ✓ Automated entry authorization
- ✓ Professional visitor experience
- ✓ Digital visitor records
- ✓ Real-time analytics & reporting

## KEY FEATURES:

QR code visitor passes

PIN-based access codes

Visitor photo capture

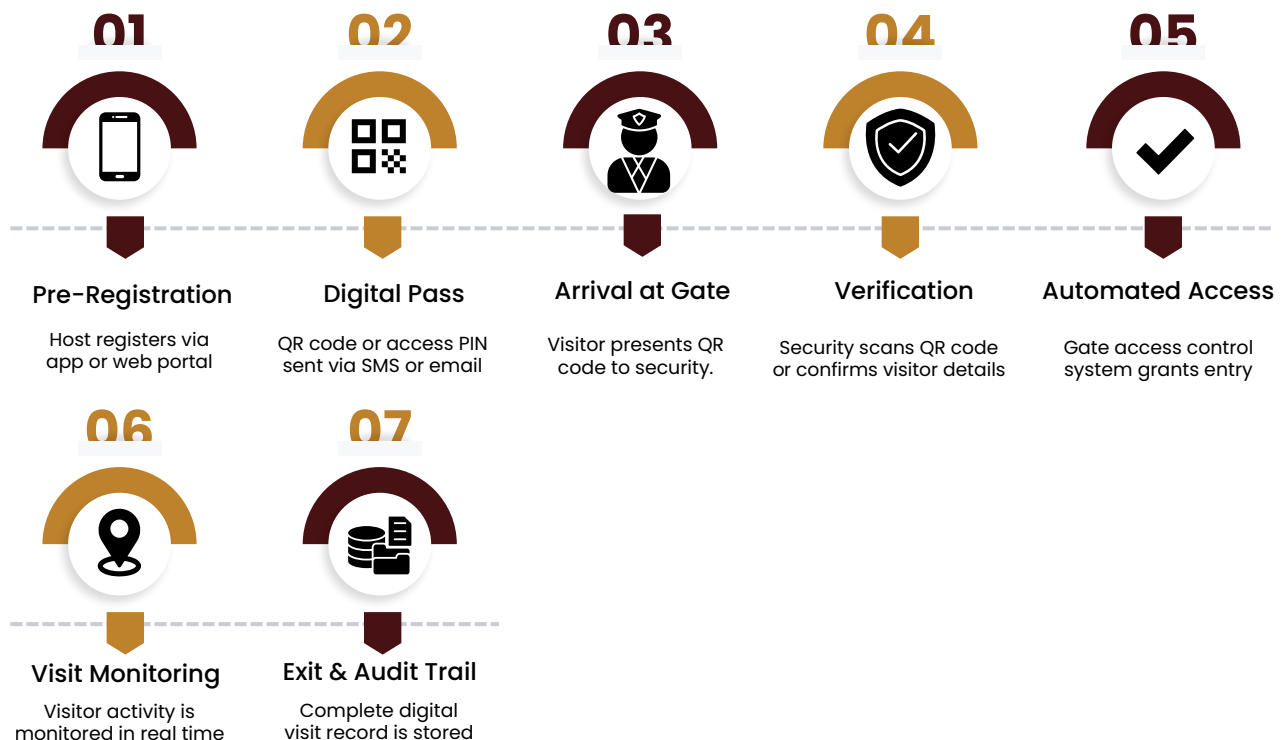

ID / passport registration

Digital visitor badges

## HOW THE SMART VISITOR JOURNEY PROCESS WORKS:

# MULTIPLE VISITOR TYPES MANAGED

## MULTIPLE VISITOR TYPES MANAGED:

Its key features encompass scheduled access windows, contractor verification, access history tracking, and automatic notifications for hosts when deliveries arrive.

### Guests & Visitors

- Pre-register visitors
- Approve guests instantly
- Receive arrival notifications
- Monitor visit history

### Delivery & Courier Management

- Courier riders
- Delivery personnel
- Supplier vehicles
- Package drop-offs

### Contractor & Service Provider Management

- Maintenance teams
- Technicians
- Contractors
- Cleaning services

### Vehicle & Parking Management

- Vehicle registration capture
- Visitor parking allocation
- Vehicle entry and exit tracking
- Delivery vehicle management

## SMART ESTATE GATE AUTOMATION:

The VMS integrates with **estate and building gate infrastructure** to automate entry management. Security teams gain **complete visibility of all entries and exits**.

### Vehicle Entry

- ANPR camera identifies vehicles
- Boom barrier opens automatically for authorized vehicles

### Visitor Entry

- QR code verification
- Security approval via system

### Pedestrian Entry

- Access control readers
- Turnstiles for controlled access

# SMART SECURITY INTEGRATION

## SYSTEM ARCHITECTURE & INTEGRATION:

The Visitor Management System integrates with building security infrastructure.

User Interfaces	Core Platform	Integrated Systems
 Mobile App	 VMS Server	 CCTV Surveillance
 Web Dashboard	 Cloud / On-premise	 Access Control
 Guard Tablets	 Visitor Database	 Boom Barriers
 Visitor Kiosks	 Analytics Engine	 ANPR Recognition

## VISITOR MOBILE APP EXPERIENCE:

Residents and staff can manage visitors directly from their phones.

This functionality is **highly valued in residential estates and office towers.**

# TRANSFORMATION IMPACT

## Traditional Logbook

- Manual visitor entries
- Slow gate processing
- No visitor verification
- No vehicle tracking
- No records or reports
- No compliance support
- Security vulnerabilities

## Smart Visitor Management

- Digital visitor registration
- Instant QR entry
- Visitor identity capture
- Vehicle management
- Digital visitor database
- Supports privacy compliance
- Enhanced security visibility

## DATA PRIVACY & COMPLIANCE:

The system supports compliance with the **Kenya Data Protection Act** and guidelines issued by the **Office of the Data Protection Commissioner**.

Privacy features include:

- Secure data storage
- Role-based access control
- Visitor data retention policies
- Encrypted data transmission

This ensures responsible handling of **visitor personal information**.

# WHY CHOOSE THIS SOLUTION?

## Perfect for Multiple Facility Types:

Corporate Office Buildings

Commercial Complexes

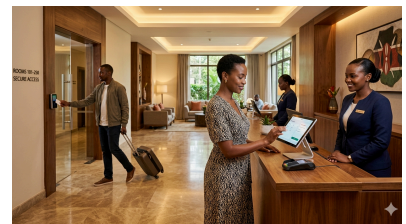

Residential Estates

Schools & Universities

Industrial Parks

Hotels & Hospitality Facilities

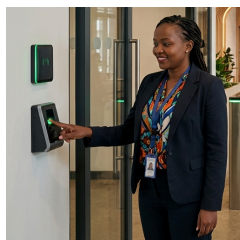

## WHY SPANS VENTURES LTD

Spans Ventures Ltd is a **leading ICT, telecommunications, and security systems integrator in Kenya** with over **20 years of experience** delivering enterprise-grade solutions.

Our expertise includes:

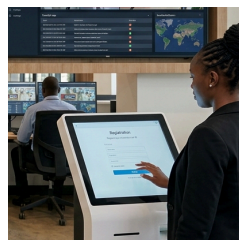

CCTV and video analytics

Access control systems

Smart Parking & ANPR

Visitor Management Systems

Security Screening Solutions

We specialize in **integrated smart security infrastructure for modern buildings and estates.**
